

ABOUT

Join in across the Pacific Northwest to celebrate our orcas during Orca Month!

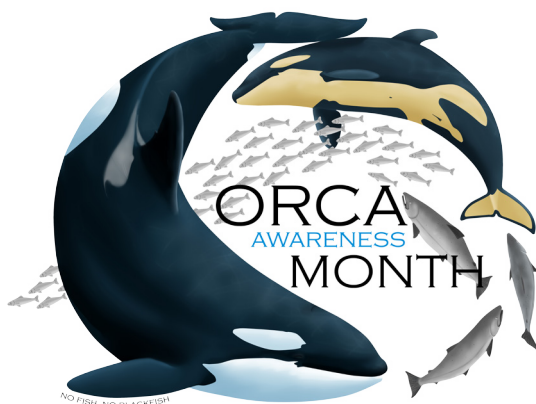

Attend events in Washington, Oregon, and British Columbia throughout June 2017 to learn about an endangered community of orcas and how you can help save them from extinction.

DID YOU KNOW

The unique population of orcas in the Pacific Northwest is endangered?

Southern Resident orcas (J, K, and L Pods) have lived in the Pacific Northwest for millennia but are now threatened by ocean noise, toxics, and especially by a shortage of their favorite food: Chinook salmon.
